

Information...

... for data integration in purchasing systems

On this information sheet you will find all the data you need to integrate our services into your purchasing system. If you have any further questions, please get in touch with your sales contact.

Synaxon EGIS

General information

Customer number: Your customer number (5 digits) at WORTMANN TELECOM (see "My account" → "[Company details](#)" | Login data for the WORTMANN TELECOM webshop required).

Attention! The WORTMANN AG customer number only works for purchases from WORTMANN AG. If you make a purchase via WORTMANN TELECOM, you have your own customer number!

Details for online orders

Login online order: Your login ID for the EDI connection starting with "biztalk_" (see "My account" → "[Electronic order connection](#)").

Password online order: Your password for the EDI connection (see "My account" → "[Electronic order connection](#)").

Information for individual price queries in real time

Login price query: Your webshop ID (login ID). The login name is always your e-mail address with which you are registered with WORTMANN TELECOM.

Keyword price inquiry: Your password hash (see "My account" → "[Customer Webservice](#)").
Your password hash changes every time you change your password for our webshop.

Attention! In order for you to be able to place an order without any problems, the fields for the individual price inquiry must also be filled in!

Active Real-time price retrieval

PRICE LIST

Auf dieser Website stellen die Daten in ITscope die individuellen WORTMANN TELECOM Einzelpreise.

ORDER

Eine erfolgreiche Realtime Konfiguration ist notwendig damit Sie Bestellungen in ITscope zum Distributor absenden können.

You can easily view your personal password hash within the WORTMANN TELECOM Online Shop.

Log in to the WORTMANN TELECOM shop and click on "My Account" -> "Customer Webservice (Realtime Query)" to view your password hash. Then add this hash together with your login data to your WORTMANN TELECOM realtime configuration in ITscope so that you can successfully activate it.

In this way you will see your individual WORTMANN TELECOM real-time prices in ITscope.

A successful real-time configuration is necessary for you to be able to send orders to the distributor in ITscope.

Credentials

Username

*

The user name for real-time price retrieval from the distributor. Example: abcdef

Password hash

*

Your password hash, not the shop password. You can obtain your password hash from your contact person at your distributor. Example: AC4266D664414928BA4266CB5899FX
