Active Real-time price retrieval

Last retrieval of today 11:19 was successful Test now

You can easily view your personal password hash within the WORTMANN TELECOM online store.

To do so, log in to the WORTMANN TELECOM Shop and click on "My Account" --> "Customer Webservice (Realtime Query)" to view your password hash there.
Then add this hash together with your login data to your WORTMANN TELECOM realtime configuration in ITscope so that you can successfully activate it.

In this way, you will then see your individual WORTMANN TELECOM real-time prices in ITscope.

Successful real-time configuration is necessary for sending orders to the distributor in ITscope.
In this way, you will then see your individual WORTMANN TELECOM real-time prices in ITscope.

Credentials

Username

The user name for real-time price retrieval from the distributor. Example: abcdef

Password hash

Your password hash, not the shop password. You can obtain your password hash from your contact person at your distributor. Example: AC4266D664414928BA4266CB5899
